## Portable Snow & Ice Melting Products *Industrial & Residential Mats*

HeatTrak™ portable snow & ice melting mats are an efficient and convenient way to eliminate snow and ice accumulation around the home or workplace. The HeatTrak™ mat plugs into any standard 120V or 240V outlet, melting up to two inches of falling snow per hour.

The HeatTrak™ mats are made of an electrically operated heating element sandwiched between two protective surfaces of non-slip rubber. The HeatTrak™ mats are extremely durable and are designed to be left outside for the entire winter season.

The HeatTrak™ mat comes with a 15-foot power cord that plugs into standard outlets using its own equipment leakage circuit interrupter (ELCI). In addition, the HeatTrak™ mats are designed with a series of 5/16" diameter brass grommets along each edge to make securing the mats both simple and effective. See the HeatTrak™ instruction manual for recommended methods of securing the mats.

To ensure the product's reliability, all HeatTrak™ products are built and tested according to the UL499 and CSA e335-1 electrical standards before leaving our facility. In addition, all HeatTrak™ products come with a 2-year manufacturer's warranty.

# Product Specifications

## Surface

Thickness	1/4"
Chevron height	0.125 inch
Minimum bend radius	3 in.
Material	stabilized butyl rubber

## Heating Element

Voltage	40 Watt/ sq. ft
Power density	120/ 240Vac

## In-line Safety Device/Power Cord

Service voltage	120Vac or 240Vac
Circuit breaker rating	15 Amp
ELCI trip level	27 mA
Cold lead length (nominal)	15 ft.
Cold lead gauge	14/3

Size	\$MSRP	Watts	Amps	Volts	Weight (lbs)	Box Size
24" x 6'	\$350.00	352	2.9	120	28	28 x 10 x 10
